🗣 Medium

Education

Undergraduate,
National Institute
of Technology
Karnataka, INDIA
2020 – 2024

Projects & Courses

Open-source

solidity, upgradeable-contracts

- Started contributing to open-source project openzeppelin; successfully got my first PR merged, here [🔗](#).

Anime3

Solidity, react, goerli, quicknode

- Built a fun project for AnimeXWeb3 folks where one can upvote their favorite anime & ranking it top there, data is stored as transactions on goerli testnet, here [🔗](#).

Blockchain & its applications, NPTEL (IIT KGP)

Apr'22

- Learned about a geth Ethereum node, account, wallet and cryptography
- Learned solidity smart contracts, RPCs, main and test networks and it's deployment

Experiences

Ethereum Community Conference, Paris'22

Jul'22

- Selected and funded by padawanDAO to attend EthCC Paris
- Participated and won a prize by Polygon in EthCC hackathon, [here](#) [🔗](#)

Developer, GitcoinDAO

Jan'22 – Nov'22

- Worked on a DAO tool displaying DAO health metrics for transparent governance, [here](#) [🔗](#).

Twitch

Feb'23 - present

- I felt the need myself, so I started twitch streaming myself learning, coding & open-source contributions to help beginners get started, find me [here](#) [🔗](#). (I also post those on [youtube](#) [🔗](#))

Skills

Python, Javascript, Typescript, Solidity, Java, React, Nodejs, AWS, ethersjs, hardhat
